

# ENGLISH

Level 5

## Small Talk

- How's life treating you? Been having fun?
- Whatcha up to for the rest of the week?
- Fancy a bite to eat?

## Conversation

- What is the dirtiest/untidiest part of your house?
- 'Young people, not their elders, should drive the political decisions of the future.' Do you agree or disagree?
- If society suddenly turned into a barter economy, how would you survive?

## Vocabulary: 3D Shapes (review)

cube	sphere
cuboid	hemisphere
pyramid	cylinder
cone	prism

## Phrase Book: General Conversation (Review)

What are some ways to say/ask:

- Long time no see?
- How have you been?
- Have you heard hear about...?

## Grammar: Passive Voice: Present Perfect (review)

have been (done/gone/eaten...) by...

Change these into the passive:

- Somebody has bought the car
- We have killed the cat
- She has marked the exam
- It has confused me
- City have beaten United

## Western Culture: The Battle of Culloden (review)

- In which century did the battle occur?  
Where?
- Who was fighting? Why?
- The battle turned into a crushing victory/  
defeat. Who won?
- What happened next?

## Flair & Skills: Assonance

Assonance is the repetition of vowel sounds in a sentence.

A little assonance can make a sentence flow and feel more rhythmical. It is also a common tool in poetry and songs (especially rap).

- *Might we lie a while?*
- *I mistook her looks for love*
- *She believes me.*
- *the crumbling thunder of seas*  
(Robert Louis Stevenson)
- *the silken sad uncertain rustling of each purple curtain* (Edgar Allan Poe)
- *And murmuring of innumerable bees*  
(Alfred Lord Tennyson)

## Dialogue: Travel Clinic (pt 1)

Nurse: Next, please.

Philip: Hi. I'm scheduled to take a trip to East Asia and the Indian **subcontinent** later this year and am wondering what **jabs** I need.

Nurse: OK, **let me have a look**. Recommended inoculations for south-east Asia are typhoid, dengue fever, and malaria. As for India, well you need a **veritable smorgasbord**: hepatitis A, hep B, typhoid, polio, Japanese encephalitis and rabies. However, we can probably **skip** a couple of those if you are sticking to major **urban** areas.

Philip: Actually, I'm going to be **out and about** in the countryside quite a bit. It's a bit of a **rural** safari.

Nurse: I see. In which case I think it is **better to be safe than sorry**. When do you head out?

Philip: **Not for another** 4 months.

Nurse: Plenty of time then. Can I ask how **up-to-date** you are on your other vaccinations? Have you had a DPT or Tdap booster in the past ten years?

Philip: I don't know what those are.

Nurse: Oh, it's the **new-fangled** name for the TB shot. Covers diphtheria too.

Philip: **To be honest**, I can't remember the last time a doctor was **let loose on** my arm. I suppose I'll need to add one of those to my **wish list** too. **Lucky me**.
